

ImPlot::GetColormapIndex

```
graph LR; A[ImPlot::GetColormapIndex] --> B[ImPlotColormapData::GetIndex]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'ImPlot::GetColormapIndex'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'ImPlotColormapData::GetIndex'.

ImPlotColormapData  
::GetIndex
