

ImPlot::SetNextAxesLimits

```
graph LR; A[ImPlot::SetNextAxesLimits] --> B[ImPlot::SetNextAxisLimits]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text "ImPlot::SetNextAxesLimits". A blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text "ImPlot::SetNextAxisLimits".
